

“Think Globally, Work Locally, Act Personally”

Green Expo Purpose:

To educate and increase awareness about potential solutions for climate change and its impact on the quality of our lives, jobs, businesses, and the economy. To bring together students, parents, grandparents, businesses, labor groups, government, and non-profit organizations to discuss climate change responses, raise our understanding, develop a common framework of the issues, and learn the direction of our city government and appropriate responses that we can personally take over the next few years.

Expo Location, Date, and Time:

- At the RA Nock Middle School on April 11, 2019 from 4- 8 pm
- There is parking on site in the side parking lot off of Johnson Street and Low Street. Please enter the building at the Superintendent’s entrance near the Skate Park.
